### Yellow's Compound Syrup of Hypophosphites.

St. John, N. B.

Mr. James I. Fellows, Manufacturing Chemist, Sir.—For several months past I have used your Compound Syrup of Hypophosphites in the treatment of incipient Phthisis, Chronic Bronchitis, and other affections of the chest; and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent-nervous tonic, it exerts a direct influence on the nervous system; and through it, it invigorates the body.

It affords me much pleasure to recommend a remedy which is really good in cases for which it is intended, when so many advertised are worse than useless. I am, sir, yours truly,

## NEWS OF THE MORNING.

The yellow fever epidemic in Memphis is at an end.

In New York City there are already 133,000 voters registered.

Adolphus Rosenburg, editor of the London Town Talk, who has been libeling noted people, has been convicted. Sentence deferred.

The remains of W. D. Burr who went up in the balloon "Pathfinder" from St. Louis three weeks ago, have been found near Tollestone, Ind. They were identified by his sleeve-buttons. Noting from Prof. Wise yet.

The Hawkeye man has been visiting the grave of Benedict Arnold, and writes: "He lived a century too early, this man of hateful and accursed memory. Had he lived a hundred years later he might have committed treason most hateful, might have sworn himself in National councils and drawn his sword against the country that taught him to use it; he might have plundered the National Treasury, robbed the Government of arsenals and stolen its navy yards, fought for years against the flag that waved over his birth, and then—A tainted name? A traitor's doom? An accursed memory? A haunted life? the doom of modern traitors? Oh, no, Lord love you, you simple-minded young patriot, nothing of the sort. He would come back and be elected to Congress, he would be a Senator, he would run the government. If Benedict Arnold ever looks around this planet and sees how Jefferson Davis is getting along, it must make him feel that he was a martyr and a deeply injured man."

## TERRORISM IN GEORGIA.

An extraordinary narrative of lawlessness and terror in the South appears in a late issue of the New York Herald. That paper comments as follows:

A gang of ruffians, apparently organized four years ago, have practical control of a portion of the very county in which Georgia's capital is situated, and for a long time have been avenging fancied private wrongs by committing various deeds of arson and bloodshed. It is hinted by some of the inhabitants that certain members of the gang are younger sons of good families, and as no robberies have been committed it appears that to enjoy the delights of ruffianism is the only object which the villains have in view. They have destroyed the peace and prosperity of a neighborhood once flourishing, and paralyzed with fear and terror a number of citizens whom no one would previously have dared to call cowards. One of the strongest features of the case is the insignificance of the causes to which the deeds of violence are attributed. A physician befriended a negro in a trial involving small amount of money, consequently his sawmill and cotton gin were burned, he and his friends were fired upon and their lives further threatened. Others declare the trouble to have found its origin in a fight between "moonshiners" and revenue officers. The odd part of the story is the belief, expressed by most of the natives, that the ruffians, whoever they may be, live in a swamp heretofore supposed to be uninhabitable. As detectives have been sent to the scene of the disturbance it is possible that something more satisfactory than suspicions may soon be reported, and that the marauders, instead of hiding in swamps, will be discovered in comfortable homes from which they have sneaked to do their mischief.

## SHARON.

Some "stalwart Republican" has a few words to say in the Times-Review about Sharon, which we kindly endorse, although we do not adopt the language of our stalwart friend. Mr. Sharon owes no favors to Nevada. He bought at an exorbitant price all he got. He paid full value for his seat in the Senate, which stood empty during his whole term and unfortunately for Nevada he is willing to buy it up again and let it air itself at the Capitol, but we question if Mr. Sharon's sack will reach this time. Was there ever "since the great flood" such a bare-faced outrage committed upon an intelligent community? Mr. Sharon, who has made his millions, can of course, afford to give elegant entertainments and gather a little notoriety from his reception of General Grant; but personally, Mr. Sharon has no claim on the public—indeed he has shown the coolest indifference to their wishes and wants—and yet, when the time comes, paid manipulators and subsidized papers will try to foist him on our State once more as its representative. We'll see.—[Carson Appeal.]

## THE SOUTH AND EUROPE.

(From the New Orleans Picayune.)

It is a waste of time to argue with out prejudiced, bigoted calumniators. We are doomed to live with them under a common Government, and must needs make the best of it. The more independent we make ourselves, the sooner will they begin to respect us. The sooner we can show them that the South can take care of itself and do its tribute to Northern cities, the sooner will Northern men wake up to the fact that the Southern States possess boundless elements of wealth.

The are four words in the English language ending c-i-o-n. Scion, coercion and suspicion are three of the words. What is the fourth?

## STATE NEWS.

## EUREKA ITEMS.

(Leader, 21st.)

Business is picking up.

Work on the new school house is progressing nicely.

A large amount of charcoal is being brought to town.

The miners in the Eureka Consolidated, on Ruby Hill, had quite a jollification last night over the re-election of Hank Donnelly to the superintendency.

Mr. Wren informs us that all of the scenery for the new hall left San Francisco to-day, and, as it was shipped by freight, it will be about eight days on the road. Therefore the hall will not be ready for theatrical purposes before November 1st.

A dividend of \$1 87½ per share, aggregating \$105,000, has been declared in London on the capital of the Richmond Company, and the stock was selling at \$45. Report says that the mine never looked better, and the ruling price of the stock substantiates its truth.

The Jackson mine has now been under the present local management ten months. During that time not a single assessment has been levied. One hundred and forty-seven thousand dollars in gold coin has been realized from sales of ore, \$65,000 of debts have been paid off, and there is money in the treasury to draw against.

## TUSCARORA NEWS.

(Times-Review, 23d.)

The snow is nearly a foot deep on White Rock Mountain.

No work is going on at present in Hick's mining district.

About 100 tons of ore from the Navajo mine has been hauled to the Independence-Navajo mill, and is to be crushed as soon as water can be obtained.

The parties who were suspected of an attempt to blow up a store house in Columbia not long ago, have, so we are informed, left that camp, and are now in Tuscarora.

The De Frees mine and mill were sold by the Constable yesterday, to satisfy judgment and costs to the amount of \$585 in favor of Robert Johnson, and were bid in for him. These judgments, however, are subject to a number of liens, attachments and preferred claims against the same property.

## CARSON JOTS.

The Tribune of the 23d says: At the social of the Carson Guard this evening a very handsome and costly silk flag will be presented to our boys in blue. We understand that Judge Hawley will make the presentation speech.

Mrs. Joseph Todman, mother of Mrs. C. C. Goodwin, was thrown from her buggy at Glenbrook last evening. The lady was bruised about the face, and had one of her wrists dislocated. Dr. S. L. Lee was telegraphed for. He drove to Glenbrook, and left the good lady quite comfortable under the circumstances.

The Appeal of the 23d says: Judge Cary yesterday fined Richard Welsh \$5 for using obscene language on the street. That's right; there are too many loafers here who haven't sufficient decency to keep their vile mouths shut even in the presence of ladies.

## WHITE PINE COUNTY.

(Herald of the 18th inst.)

From Wash Woodberry, County Assessor, who came in from the county seat Monday we learn that there are more signs of life around Hamilton at present than at Ward. As many as eight mines in the famous old district of White Pine are being worked. In the majority of the cases the number of men employed in each mine, is not what could be called large, but three men are employed in that district to one in this.

The men at work in the tunnel for the Martin White Company are now twenty feet under cover. Progress will be necessarily slow until the Ingersoll drills gets to work, as the face is in very hard rock. It may be passed through, sooner than present indications warrant.

On the summit between Hamilton and Robinson the snow is reported by John Condon, stage driver, to be three feet deep. This same summit has always been the cause of delay when the stages fail to arrive on time.

Snow fell in Ward to the depth of eight inches Tuesday night—the heaviest snowfall in this section for the past three years.

Wm. Burrows fired two shots at Spanish Bill, in a Ward saloon last Saturday night, without hitting his man.

## LINCOLN COUNTY.

(Herald of the 18th inst.)

Captain Carden, an old resident of Meadow Valley Wash, some time ago purchased a ranch from Joe Roberts with all the stock in Bear Valley, near Parowan, Utah, and went there to live. On Wednesday night a man supposed to be Joe Roberts and his gang, came to his ranch and drove off the horses. The next night, Thursday, the stage was robbed four miles north of Cedar City, and it is thought that the thieves who stole Carden's horses also robbed the stage.

Hank Connors, who has been engaged for some time hauling water from the fifteen mile house to Royal City, on Thursday afternoon was picked up on the road unconscious and badly mangled, in different places, and conveyed to Royal City. The doctor was sent out Friday. No one knows how any accident occurred and he is unable to give any account of it, but it is supposed that a barrel of water rolled on to him in some manner.

When the Hillside M. & M. Company made application to obtain a patent to their ground about a year ago, protests were entered and filed in the Land Office and suits commenced. During the week these suits were settled and protests withdrawn, so that now the company will obtain a patent to their ground.

Forty-five tons of ore from the Hillside mine are daily shipped down to the furnace, which started up the fore part of last week and is doing good work,

turning out a large amount of bullion. The new water-jacket has arrived and will be put up immediately.

We learn from parties from Utah, that the stage going from Silver Reef to Beaver was stopped the other day and Wells, Fargo & Co.'s treasure box taken. The robbers did not secure enough booty to pay them for their trouble.

The Condor mill was shut down on Monday, the lessee being unable to work the tailings any longer to an advantage.

Pioche bullion valued at \$7,270 30 was shipped during the past week by Wells, Fargo & Co.

## HUMBOLDT NOTES.

(Silver State, 23d.)

It is said big money has been offered and refused for the horse Greeley, owned by L. H. Morse, which beat the Eureka mare Emma Skaggs at the race last week.

Rabbits, which have been quite scarce in this vicinity, for the past year or two, are getting plentier. Hunters, in lieu of better game, now bring in rabbits. A woman, who is a crack shot with a rifle, went out in the sagebrush a short distance below town the other day and shot and killed four rabbits.

The Grand Jury now in session made a partial report to the Court yesterday. The jury found four indictments for resorting to an opium den for the purpose of smoking opium, and one for keeping an opium den.

Several of the boys now spend their time fishing in the Humboldt, which is so shallow that a person can wade it almost anywhere. As the dams down the river prevent chubs from coming up stream, they are rather scarce, and trout will not take the bait, they—the fishermen—are not very successful.

"Montana," who, has just returned from Paradise, is excited over what he saw in the mines and at the mills. He says the Bullion mine is now producing the richest ore ever seen in the county. Large masses of it are held together with wire silver, and there seems to be any quantity of it in sight in the mine. At the mill they have boxes of amalgam which they are retorting and moulding into bars, and some of these days will make the largest bullion shipment ever made from the Paradise mines at one time.

**HIGHTS OF BUILDINGS.**—The following are the heights of the principal monuments, domes, etc., in the world: St. Antoine column at Rome, 135 feet; principal tower of the Smithsonian Institute at Washington, 145; Trojan's column at Paris 150; Washington Monument at Baltimore, 180; the great obelisk at Thebes, 200; Bunker Hill Monument at Charlestown 223; column of Delhi, 262; Trinity Church, steeple at New York, 264; the contemplated new dome of the Capitol, 300; dome of St. Paul's Cathedral at London, 320; tower of Manlius 350; tower of the cathedral at Strasburg, 460; dome of St. Peter's Cathedral, Rome, 465; great pyramid of Egypt, 481.

Of late there has been an advance of twenty per cent. in bluestone. This is like so much clear gain to our Nevada manufacturers. Previous to this rise they were just about able to hold their own against the Eastern article. When the price went up in the Atlantic States it was just so much added to what our manufacturers had been getting for their product, as the cost of producing remains the same as before.—Enterprise.

A Boston druggist sold an ounce of laudanum to a boy who brought a written order for tincture of rhubarb, and the widow of the man killed by the blunder has obtained a verdict of \$5,208 damages.

 account for. On examining the urinary deposits
